THE APPLICATION IDENTIFIED ABOVE HAS BEEN EXAMINED AND IS ALLOWED FOR ISSUANCE AS A PATENT. PROSECUTION ON THE MERITS IS CLOSED. THIS NOTICE OF ALLOWANCE IS NOT A GRANT OF PATENT RIGHTS. THIS APPLICATION IS SUBJECT TO WITHDRAWAL FROM ISSUE AT THE INITIATIVE OF THE OFFICE OR UPON PETITION BY THE APPLICANT. SEE 37 CFR 1.313 AND MPEP 1308.

THE ISSUE FEE AND PUBLICATION FEE (IF REQUIRED) MUST BE PAID WITHIN THREE MONTHS FROM THE MAILING DATE OF THIS NOTICE OR THIS APPLICATION SHALL BE REGARDED AS ABANDONED. THIS STATUTORY PERIOD CANNOT BE EXTENDED. SEE 35 U.S.C. 151. THE ISSUE FEE DUE INDICATED ABOVE DOES NOT REFLECT A CREDIT FOR ANY PREVIOUSLY PAID ISSUE FEE IN THIS APPLICATION. IF AN ISSUE FEE HAS PREVIOUSLY BEEN PAID IN THIS APPLICATION (AS SHOWN ABOVE), THE RETURN OF PART B OF THIS FORM WILL BE CONSIDERED A REQUEST TO REAPPLY THE PREVIOUSLY PAID ISSUE FEE TOWARD THE ISSUE FEE NOW DUE.

HOW TO REPLY TO THIS NOTICE:

I. Review the SMALL ENTITY status shown above.

If the SMALL ENTITY is shown as YES, verify your current SMALL ENTITY status:

A. If the status is the same, pay the TOTAL FEE(S) DUE shown above.

B. If the status above is to be removed, check box 5b on Part B - Fee(s) Transmittal and pay the PUBLICATION FEE (if required) and twice the amount of the ISSUE FEE shown above, or

If the SMALL ENTITY is shown as NO:

A. Pay TOTAL FEE(S) DUE shown above, or

B. If applicant claimed SMALL ENTITY status before, or is now claiming SMALL ENTITY status, check box 5a on Part B - Fee(s) Transmittal and pay the PUBLICATION FEE (if required) and 1/2 the ISSUE FEE shown above.

II. PART B - FEE(S) TRANSMITTAL, or its equivalent, must be completed and returned to the United States Patent and Trademark Office (USPTO) with your ISSUE FEE and PUBLICATION FEE (if required). If you are charging the fee(s) to your deposit account, section "4b" of Part B - Fee(s) Transmittal should be completed and an extra copy of the form should be submitted. If an equivalent of Part B is filed, a request to reapply a previously paid issue fee must be clearly made, and delays in processing may occur due to the difficulty in recognizing the paper as an equivalent of Part B.

III. All communications regarding this application must give the application number. Please direct all communications prior to issuance to Mail Stop ISSUE FEE unless advised to the contrary.

IMPORTANT REMINDER: Utility patents issuing on applications filed on or after Dec. 12, 1980 may require payment of maintenance fees. It is patentee's responsibility to ensure timely payment of maintenance fees when due.

PART B - FEE(S) TRANSMITTAL

Complete and send this form, together with applicable fee(s), to: **Mail** Mail Stop ISSUE FEE
Commissioner for Patents
P.O. Box 1450

Determination of Patent Term Adjustment under 35 U.S.C. 154 (b) (application filed on or after May 29, 2000)

The Patent Term Adjustment to date is 855 day(s). If the issue fee is paid on the date that is three months after the mailing date of this notice and the patent issues on the Tuesday before the date that is 28 weeks (six and a half months) after the mailing date of this notice, the Patent Term Adjustment will be 855 day(s).

If a Continued Prosecution Application (CPA) was filed in the above-identified application, the filing date that determines Patent Term Adjustment is the filing date of the most recent CPA.

Applicant will be able to obtain more detailed information by accessing the Patent Application Information Retrieval (PAIR) WEB site (<http://pair.uspto.gov>).

Any questions regarding the Patent Term Extension or Adjustment determination should be directed to the Office of Patent Legal Administration at (571)-272-7702. Questions relating to issue and publication fee payments should be directed to the Customer Service Center of the Office of Patent Publication at 1-(888)-786-0101 or (571)-272-4200.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

The examiner notes the following Reasons for Allowance will supersede the previous Reasons for Allowance dated on 5/17/2010.

The examiner has found that Applicant's Remarks presented on 9/2/2009, along with the other remarks presented throughout the prosecution history of the instant application, to be persuasive.

Therefore the examiner notes that independent claims 41, 65, 79, and 85 are allowed.

The examiner notes independent claim 41 was not found to be taught, disclosed, or suggested alone or in combination within the prior art found based on the following:

A computer-implemented method, comprising:

storing, with a central processing computer, information regarding a ticket request or a ticket option request for at least one of a ticket for a portion of an event which remains after a start of the event and before a completion or a conclusion of the event and a ticket option for a portion of an event which remains after a start of the event and before a completion or a conclusion of the event, wherein the ticket for a portion of the event or the ticket option for a portion of the event is derived from a ticket for an entire event, wherein the event is at least one of a game, an athletic event, a competition, a performance, a concert, and a tournament, and further wherein the event

is an event which takes place at or in at least one of a stadium, an arena, a theatre, a movie theatre, a concert hall, a museum, and a performance hall, and further wherein the ticket for the entire event corresponds to a seat or seats at the at least one of a stadium, an arena, a theatre, a movie theatre, a concert hall, a museum, and a performance hall, for the event, wherein the ticket for the entire event is purchased from a ticket issuer by a first individual having a ticket account, and further wherein the ticket for a portion of the event or the ticket option for a portion of the event is purchased by or used by a second individual during the event and before the completion or the conclusion of the event with a payment for a purchase or a use of the ticket for a portion of the event, or a payment for a purchase or a use of the ticket option for a portion of the event, being made to the ticket account of the first individual or a ticket account of a third individual;

receiving and storing, with the central processing computer, information regarding an available ticket for a portion of an event which remains after a start of the event and before a completion or a conclusion of the event either prior to a start or a completion or a conclusion of the event or when the first individual or the third individual is leaving a venue of the event or leaving the event during the event and prior to a completion or a conclusion of the event, wherein the first individual or the third individual initiates or establishes a communication link with the central processing computer using a first communication device, and further wherein the information regarding an available ticket for a portion of an event is transmitted from the first communication device and is

received by the central processing computer after the communication link is initiated or established;

processing, with the central processing computer, the information regarding a ticket request or a ticket option request for at least one of a ticket for a portion of an event which remains after a start of the event and before a completion or a conclusion of the event and a ticket option for a portion of an event which remains after a start of the event and before a completion or a conclusion of the event, wherein the central processing computer processes the information regarding a ticket request or a ticket option request using the information regarding an available ticket;

generating, with the central processing computer, at least one of a ticket availability message and a ticket option availability message, wherein the at least one of a ticket availability message and a ticket option availability message contains information regarding at least one of a ticket for a portion of an event which remains after a start of the event and before a completion or a conclusion of the event and a ticket option for a portion of an event which remains after a start of the event and before a completion or a conclusion of the event, wherein the at least one of a ticket availability message and a ticket option availability message is generated before a completion or a conclusion of the event; and

transmitting, from the central processing computer, the at least one of a ticket availability message and a ticket option availability message to a second communication device associated with or used by the second individual or a fourth individual, wherein the at least one of a ticket availability message and a ticket option availability message is transmitted to the second communication device before a completion or a conclusion of the event.

The examiner notes independent claim 65 was not found to be taught, disclosed, or suggested alone or in combination within the prior art found based on the following:

A computer-implemented method, comprising:

receiving and storing, with a central processing computer, information regarding a ticket request or a ticket option request for at least one of a ticket for a portion of an event which remains after a start of the event and before a completion or a conclusion of the event and a ticket option for a portion of an event which remains after a start of the event and before a completion or a conclusion of the event, wherein the ticket for a portion of the event or the ticket option for a portion of the event is derived from a ticket for an entire event, wherein the event is at least one of a game, an athletic event, a competition, a performance, a concert, and a tournament, and further wherein the event is an event which takes place at or in at least one of a stadium, an arena, a theatre, a movie theatre, a concert hall, a museum, and a performance hall, and further wherein the ticket for the entire event corresponds to a seat or seats at the at least one

of a stadium, an arena, a theatre, a movie theatre, a concert hall, a museum, and a performance hall, for the event, wherein the ticket for the entire event is purchased from a ticket issuer by a first individual having a ticket account, and further wherein the ticket for a portion of the event or the ticket option for a portion of the event is purchased by or used by a second individual during the event and before the completion or the conclusion of the event with a payment for a purchase or a use of the ticket for a portion of the event, or a payment for a purchase or a use of the ticket option for a portion of the event, being made to the ticket account of the first individual or a ticket account of a third individual;

receiving and storing, with the central processing computer, information regarding an available ticket for a portion of an event which remains after a start of the event and before a completion or a conclusion of the event when the first individual or the third individual is leaving a venue of the event or leaving the event during the event and prior to a completion or a conclusion of the event, wherein the first individual or the third individual initiates or establishes a communication link with the central processing computer using a first communication device, and further wherein the information regarding an available ticket for a portion of an event is transmitted from a first communication device and is received by the central processing computer after the communication link is initiated or established;

processing, with the central processing computer, the information regarding a ticket request or a ticket option request for at least one of a ticket for a portion of an event which remains after a start of the event and before a completion or a conclusion of the event and a ticket option for a portion of an event which remains after a start of the event and before a completion or a conclusion of the event, wherein the central processing computer processes the information regarding a ticket request or a ticket option request using the information regarding an available ticket;

generating, with the central processing computer, at least one of a ticket availability message and a ticket option availability message, wherein the at least one of a ticket availability message and a ticket option availability message contains information regarding at least one of a ticket for a portion of an event which remains after a start of the event and before a completion or a conclusion of the event and a ticket option for a portion of an event which remains after a start of the event and before a completion or a conclusion of the event, wherein the at least one of a ticket availability message and a ticket option availability message is generated before a completion or a conclusion of the event; and

transmitting, from the central processing computer, the at least one of a ticket availability message and a ticket option availability message to a second communication device associated with or used by the second individual or a fourth individual, wherein the at least one of a ticket availability message and a ticket option

availability message is transmitted to the second communication device before a completion or a conclusion of the event.

transmitting, from the central processing computer, the at least one of a ticket availability message and a ticket option availability message to a second communication device associated with or used by the second individual or a fourth individual, wherein the at least one of a ticket availability message and a ticket option availability message is transmitted to the second communication device before a completion or a conclusion of the event.

The examiner notes independent Claim 79 was not found to be taught, disclosed, or suggested alone or in combination within the prior art found based on the following:

A computer-implemented method, comprising:

storing, with a central processing computer, information regarding a ticket request for a ticket for a portion of an event which remains after a start of the event and before a completion or a conclusion of the event, wherein the ticket for a portion of the event is derived from a ticket for an entire event, wherein the event is at least one of a game, an athletic event, a competition, a performance, a concert, and a tournament, and further wherein the event is an event which takes place at or in at least one of a stadium, an arena, a theatre, a movie theatre, a concert hall, a museum, and a performance hall, and further wherein the ticket for the entire event corresponds to a

seat or seats at the at least one of a stadium, an arena, a theatre, a movie theatre, a concert hall, a museum, and a performance hall, for the event, wherein the ticket for the entire event is purchased from a ticket issuer by a first individual having a ticket account, and further wherein the ticket for a portion of the event is purchased by or used by a second individual during the event and before the completion or the conclusion of the event with a payment for a purchase or a use of the ticket for a portion of the event being made to the ticket account of the first individual or a ticket account of a third individual;

receiving and storing, with the central processing computer, information regarding an available ticket for a portion of an event which remains after a start of the event and before a completion or a conclusion of the event either prior to a start or a completion or a conclusion of the event or when the first individual or the third individual is leaving a venue of the event or leaving the event during the event and prior to a completion or a conclusion of the event, wherein the first individual or the third individual initiates or establishes a communication link with the central processing computer using a first communication device, and further wherein the information regarding an available ticket for a portion of an event is transmitted from the first communication device and is received by the central processing computer after the communication link is initiated or established;

processing, with the central processing computer, the information regarding a ticket request for a ticket for a portion of an event which remains after a start of the event and before a completion or a conclusion of the event, wherein the central processing computer processes the information regarding the ticket request using the information regarding an available ticket;

generating, with the central processing computer, a ticket availability message, wherein the ticket availability message contains information regarding a ticket for a portion of an event which remains after a start of the event and before a completion or a conclusion of the event, wherein the ticket availability message is generated before a completion or a conclusion of the event; and

transmitting, from the central processing computer, the ticket availability message to a second communication device associated with or used by the second individual or a fourth individual, wherein the ticket availability message is transmitted to the second communication device before a completion or a conclusion of the event.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

The examiner notes independent claim 85 was not found to be taught, disclosed, or suggested alone or in combination within the prior art found based on the following:

An apparatus, comprising:

a central processing computer, further comprising:

a memory device, wherein the memory device stores information regarding a ticket request or a ticket option request for a ticket for a portion of an event which remains after a start of the event and before a completion or a conclusion of the event or a ticket option for a portion of an event which remains after a start of the event and before a completion or a conclusion of the event, wherein the ticket for a portion of the event or the ticket option for a portion of the event is derived from a ticket for an entire event, wherein the event is a game, an athletic event, a competition, a performance, a concert, or a tournament, and further wherein the event is an event which takes place at or in a stadium, an arena, a theatre, a movie theatre, a concert hall, a museum, or a performance hall, and further wherein the ticket for the entire event corresponds to a seat or seats at the stadium, the arena, the theatre, the movie theatre, the concert hall, the museum, or the performance hall, for the event, wherein the ticket for the entire event is purchased from a ticket issuer by a first individual having a ticket account, and further wherein the ticket for a portion of the event or the ticket option for a portion of the event is purchased by or used by a second individual during the event and before the completion or the conclusion of the event with a payment for a purchase or a use of the

ticket for a portion of the event, or a payment for a purchase or a use of the ticket option for a portion of the event, being made to the ticket account of the first individual or a ticket account of a third individual;

a receiver, wherein the receiver receives, and the memory device or the central processing computer stores, information regarding an available ticket for a portion of an event which remains after a start of the event and before a completion or a conclusion of the event either prior to a start or a completion or a conclusion of the event or when the first individual or the third individual is leaving a venue of the event or leaving the event during the event and prior to a completion or a conclusion of the event, wherein a communication link is initiated or established between the receiver or the central processing computer and a first communication device associated with the first individual or the third individual, and further wherein the information regarding an available ticket for a portion of an event is transmitted from the first communication device and is received by the receiver or by the central processing computer after the communication link is initiated or established;

a processing device, wherein the processing device processes the information regarding a ticket request or a ticket option request for the ticket for a portion of an event which remains after a start of the event and before a completion or a conclusion of the event or the ticket option for a portion of an event which remains after a start of the event and before a completion or a conclusion of the event, wherein the processing

device or the central processing computer processes the information regarding a ticket request or a ticket option request using the information regarding an available ticket, and further wherein the processing device or the central processing computer generates a ticket availability message or a ticket option availability message, wherein the ticket availability message or the ticket option availability message contains information regarding a ticket for a portion of an event which remains after a start of the event and before a completion or a conclusion of the event or a ticket option for a portion of an event which remains after a start of the event and before a completion or a conclusion of the event, wherein the ticket availability message or the ticket option availability message is generated before a completion or a conclusion of the event; and

a transmitter, wherein the transmitter transmits the ticket availability message or the ticket option availability message to a second communication device associated with the second individual or a fourth individual, wherein the ticket availability message or the ticket option availability message is transmitted to the second communication device before a completion or a conclusion of the event.
